VISION

Business Overview

Small, serviced offices to meet the working needs of small groups

Our offices are small, serviced offices that meet the needs of small groups such as startups, company satellite offices (e.g. for a special project), regional or overseas company bases and freelancers.

Streamlining business and boosting productivity through utilization of technology such as IoT is indispensable to the office of the future. More importantly, however, we value the mental health and personal preferences of our tenants and seek to provide environments where workers can be happy. Our pursuit is new-era offices that conform to each occupant, maximize individual potential and support the small businesses that will transform society.

Happiness at work.
